

Context

Act as a Senior Developer create strictly HTML page for US reviewer with customized UI
not embedding/Without Langflow chat CDN

Instructions

1) Strictly DO NOT use the below langflow CDN for chat

```
<script src="https://cdn.jsdelivr.net/gh/langflow-ai/langflow-embedded-chat@main/dist/build/static/js/bundle.min.js"></script>
```

2) Mandatorily Chat UI should be Custom One calling the Langflow API

3) UI should have sample user stories fetch from Jira

4) Chat is not required need only the review and total review rating bases for the User stories

5) Strictly Implement Ghraphical representation for all the Userstories and need a graphical representation in total also

6) UI should be a Description about the Testcase Generator

7) Chat window should be responsive and should work seamlessly across different devices and screen sizes.

8) Strictly Enure that toggle option is implemented on the top right corner of the page

Dark (Moon icon) and light(Sun icon) theme in the UI

9) Ghraphical representations need to easyily seen and with color codings

10) if the score is low need to provide a red indicator that is low score

12) Welcome message should be User story review model

13) use the below API --API Baseurl,flowid,API key and model should be configurable in the script file no hardcoing in the HTML

HTTP Method -Post

Endpoint -http://localhost:7860/api/v1/run/b925019f-b319-43cc-b16f-b1313838d865

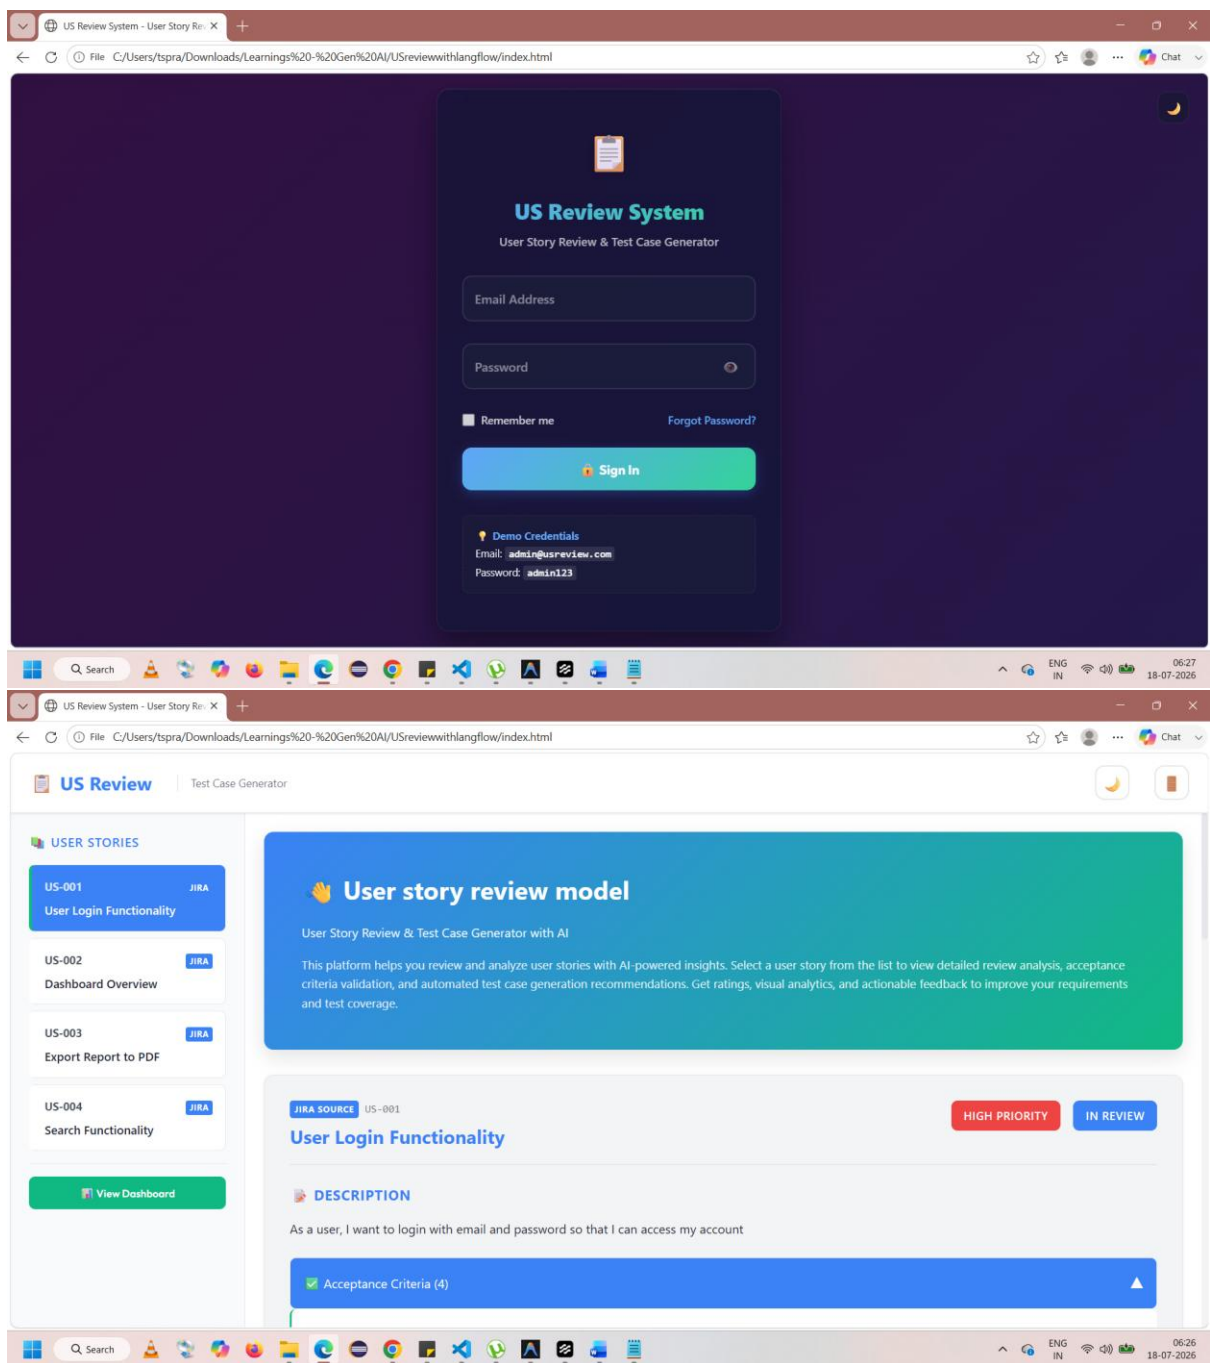

BaseUrl-http://localhost:7860/api/v1/run

Flow ID-b925019f-b319-43cc-b16f-b1313838d865

API Key-sk-eKOsD__BbpbHODYDnHONGPXYEloOPL_Tgd5Loda_8c

14) Provide the clear picture of the Userstories, all the Description & Acceptance criteria and data fetched from the JIRA

15) once we click on that Userstory number, once we click on that Userstories number, it will expand and give the details
